For the first time, the Chemicals Business Area of Evonik Industries (formerly Degussa) will offer its products, services and solutions for the plastics industry under its new brand and corporate color “deep purple” at Chinaplas 2008 in Shanghai. Its activities focus essentially on two different target groups: processors and manufacturers of plastics.

“Specialty plastics is one of Evonik's growth drivers”, says Patrik Wohlhauser, member of the Management Board of Evonik Degussa GmbH. In this market, customer orientation plays a pivotal role. Evonik focuses on providing customer-specific solutions: Direct dialog with customers is as important as novel products and solutions in applications technology. “For this reason, we develop a large proportion of our specialized products in close collaboration with our customers,” says Wohlhauser.

Evonik manufactures customized PMMA-based molding compounds (PLEXIGLAS®, PLEXALLOY® und CYROLITE®), polyamide 12, polyamide 612, and polyamide elastomers (VESTAMID®), transparent polyamides (TROGAMID®), polybutylene terephthalate (VESTODUR®), and polyether ether ketone (VESTAKEEP®). All compounds show precisely defined functionality that satisfies the high demands of designers as well as technical requirements for economical processing.

PRINTEX® pigment blacks are used to color polymers, stabilize them against UV radiation, and impart conductivity. CORAX® rubber blacks and ULTRASIL® rubber silicas are used in conjunction with silanes as reinforcing fillers for rubber.

Evonik's POLYTREND® liquid color systems enable highest color flexibility to the plastic industry. With dedicated hardware and a well defined selection of base colors, in house color matching has become realistic and simple. Visit our booth and see our demonstration to experience a quick online color change with POLYTREND® liquid color systems.

Company information

Evonik Industries is the creative industrial group from Germany which operates in three business areas: Chemicals, Energy and Real Estate. Evonik is a global leader in specialty chemicals, an expert in power generation from hard coal and renewable energies, and one of the largest private residential real estate companies in Germany. Our strengths are creativity, specialization, continuous self-renewal, and reliability. Evonik is active in over 100 countries around the world. In its fiscal year 2006 more than 43,000 employees generated sales of about Euro 14.8 billion and an operating profit (EBIT) of over Euro 1.2 billion.
